

DESCRIPTION:

Introducing our first MSOFT racing boots, designed for race drivers and speed enthusiasts seeking lightness, comfort, and breathability. Complying the FIA 8856-2018 standard, providing an exceptional level of safety without compromising performance.

They feature a micro-perforated tongue for heat dissipation, keeping your feet cool and comfortable. The lightweight design ensures an agile feel during driving, with a 3mm sole at the toe and specific heel rubber for optimal performance.

The MSOFT is engineered to strike a perfect balance between comfort and precise pedal feel, offering drivers the ideal combination of comfort and control.

Experience driving with the comfort and confidence of MSOFT.

FEATURES:

- FIA 8856-2018 Homologation.
- Crafted with natural leather.
- Fine laces for a better fit.
- Resilient and grippy sole.
- Special protections on the side of the toe and heel.
- Anatomically ergonomic design.
- Customizable with your name and flag on the Velcro flap.
